SUITEAPP CERTIFIED BY ORACLE NETSUITE

Content

Chile
Localization

The **Chile Localization** product is designed to provide a set of **configurations and processes developed in NetSuite** that allow companies across various industries to automate tax calculation processes for purchases and sales, electronic invoicing, and the generation and download of reports. It ensures compatibility and compliance with the country's fiscal requirements in a simple manner.

Key Benefits

Our product is built entirely on NetSuite, achieving compatibility with the suite of customization and reporting tools provided by NetSuite. Key benefits include:

- **Reduces the administrative burden of electronic invoicing processes** through automated, mass certification of receipts.
- **National tax compliance.**
- **Streamlines withholding tax calculation** processes on purchases.
- **Provides standardized tax reports** with the main tax filing systems.
- **Automatic update of the USD/dollar exchange rate** with the Central Bank of Chile.
- **Biannual product updates** to adapt and ensure continued compliance with the country's tax requirements.
- User portal for managing **support tickets**.

Certified SuiteApp Product by Oracle NetSuite

Tekiio's Chile Localization is certified by **Oracle NetSuite** for both Legacy Tax Engine and SuiteTax, validating the product's development and operation under NetSuite's best development practices.

Features

Tekiio's Chile enables **NetSuite** users to manage mandatory tax and fiscal processes in the country through a set of adjustments to standard NetSuite flows, including:

- **Tax Management on Purchases and Sales (0% and 19%)**

- **Electronic Invoicing for all sales documents**

- **Automatic calculation of Purchase Withholdings.**

- **Automatic exchange rate integration with the Central Bank of Chile.**

- **Withholding and National Tax Reports.**
  (8-column balance sheet, VAT ledger , Sales/Purchases, Journal, General Ledger, Withholding Details)
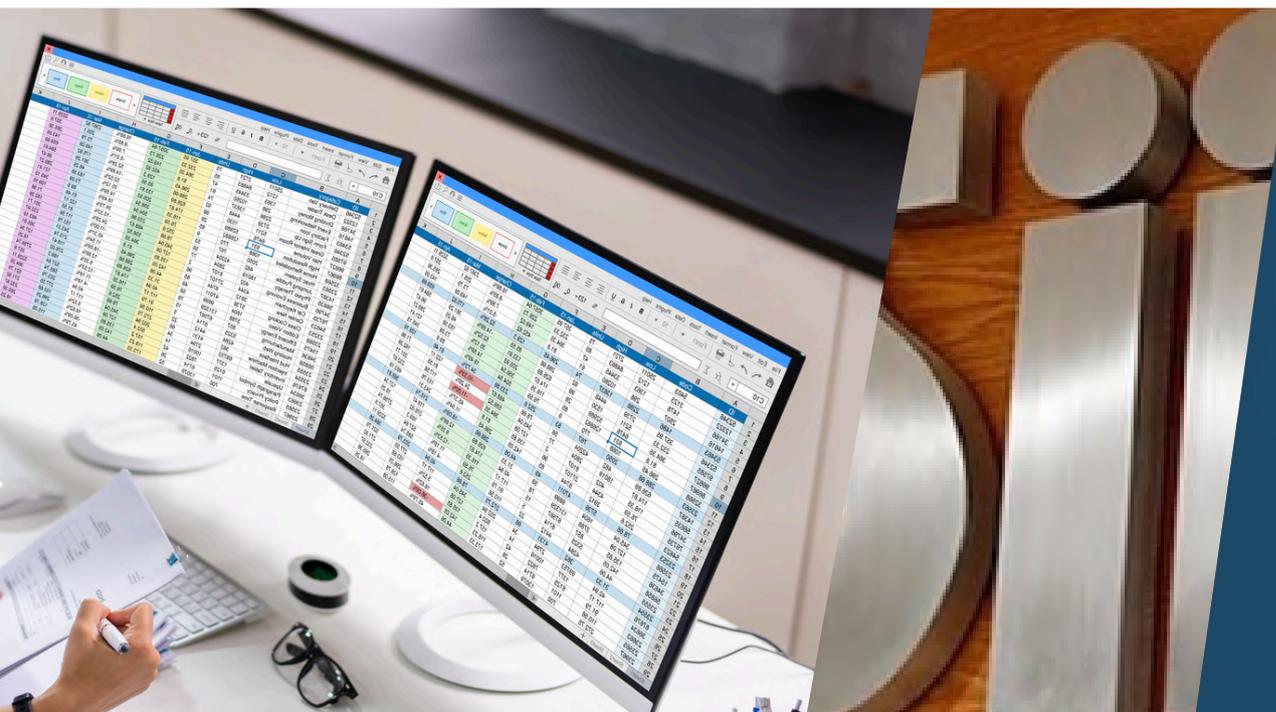

Electronic Invoicing

A specialized module for electronic invoice certification via authorized Electronic Invoicing providers in Chile:

- **Issuance of Electronic Documents:**

    *Certification of Local Sales Receipts (Receipts, Invoices, Credit Notes, and Debit Notes).

    *Certification of Export Sales Receipts.

    *Certification of Shipping Guides.

- **Certification of Electronic Receipts through the Electronic Envoice provider:** Facele (*).

- **Batch or Mass-Automatic Receipt Certification Panel.**

- **PDF Printing of Certified Sales Documents.**

- **Sending certified receipts to clients by email.**

(*) – The Localization product does not include the contracting of the Electronic Invoicing provider.

Fiscal
Localizations

We cover the tax legislation of multiple countries, allowing companies to comply with the accounting needs of each region they operate in. Each fiscal localization is fully **integrated and embedded within Oracle NetSuite's** standard operating flows, so your company can issue, validate, and manage compliant tax documents in real-time.

Localizations are developed and updated exclusively by Tekiio. Contact us for the available versions by country.

TAXES

Adapt NetSuite to each country and simplify tax compliance with Tekiio's localizations.
